Mizzou International Experience (MIE) engages high school students from around the world in exploring their future careers while building international connections and fostering personal growth.

The summer program jumpstarts students’ pursuit of 21st century careers and helps prepare them for the college experience. At MIE, students, or “explorers,” interact with university faculty members and industry professionals during site visits to academic departments, Fortune 500 companies, as well as nonprofit and government offices.

Program curriculum integrates professional site visits based on six career paths.
